

## Guidian Healthcare Consulting Your Health Center's Guide to Financial Success

## Planning Solutions to Meet your Health Center's Needs

### Strategic Planning

Define strategic direction and goals by analyzing your market and operations to achieve organizational mission.

### Market Analysis

Analyze the market to identify growth opportunities within market segments and identify untapped referral sources.

### Operations Analysis

Achieve efficient practice operations by identifying opportunities to improve provider productivity & patient flow.

### Operations Architecture

Design space in which Form Follows Function by integrating operational process design with floor plan design.

### Grant Writing

Identify opportunities and successfully apply for funding for both operational and capital grants.

### Fundraising Development

Define fundraising strategy and goals and develop the fundraising plan & timeline to achieve short- and long-term goals.

### Community Planning

Design system solutions in which all Components of the Health Delivery System are engaged to increase primary care access.
